SEA ISLAND COTTON CROP. - Our previous statement, dated September 2d, 'ative to the injury to the cotton crop by caterpillar and the late rains, is further confirmed. We to-day had the privilege of reading letters from all sections, and they are of the glomiest kind:

James' Island.-Crop reported almost a total failure. Estimated at about twenty-five pounds to the acre.

St. Andrew's Parish. - Crop also seriously injured, the caterpillar being general.

Christ Church.-Crops going to destruction; every place infested by caterpillar, the leaves and young forms being destroyed. Edisto Island. Caterpillar reported sweeping

over the fields, completing the ruin begun by ex-John's Island.—Caterpillars on every place heard

from, destroying the young boils. Cannot make over half a crop. Beaufort District.-Crop represented as suffer-

ing greatly from rain, bad work and caterpillar. St. Luke's and Prince William's.-Crops generally reported bad. The heavy rains have done as much injury as the caterpillar. Crop will be about

St. John's and St. Stephen's .- This section has just been reached by the worm, but the proportion of land planted is small, from want of labor. Crop

will be about a half .. Florida-Marion and Alachua Counties. - Crops

seriously injured by rain and caterpillar. Can

hardly realize over one-third of a crop. Gainesville. - The caterpillar has swept over this entire section, and, under the most favorable circumstances, a third of a crop can hardly be made.

THE IRREPRESSIBLE CONFLICT IN FLORIDA.—The Savannah News and Herald, of Wednesday, says: By the steamer Lizzie Baker, from Florida yesterday morning, we have received particulars of a demonstration at Fernandina, which was fortunately quelled by the good sense and judgment of Capt. Usma, of that steamer, and the prompt interference of the military. The brief statement of facts made to us are as follows: On the arrival of the Lizzie Baker at Fernandina, on her trip south, while the crew were busily engaged in discharging the freight consigned to that point, under the superintendence of the mate, a strange begro came aboard. The mate inquired his business, and was told that he had come to see after some bag gage. He was informed by the officer that it was against the rules of the boat for him to be there; that the baggage and freight would be properly attended to, and ordered him ashore. The negro started, but remained on the gang plank sulkily, and being again warned ashore, replied with insolent language. The mate then introduced to his caudal extremity some shoe leather, which facilitated his progress to the dock, where he stood at

the head of the gang plank, apparently master of the situation. A short while after a colored man, named Lee, appeared on the wharf, demanding to know who it was that kicked the genius aforesaid, and upon be ing told that the mate was the resposible party, with many expletives he dared him ashore, swearing that the would make sunlight shine through him. That officer being busily engaged in his duties on shipboard, superintending the delivery of freight, paid no attention to the insulting language of the negro; but his duties calling him upon the dock zhortly afterward, he went. A large crowd of excited negroes had gathered, and while attending to his business one of them approached behind the officer with a drawn knife, and was about to inflict a blow, when his hand was arrested by a bystander, who hurried the party off. Captain USINA immediately gave notice to the agent at that point to have a guard placed upon the dock on the return of the steamer to Fernandina, and having nned his freight went on his voyage. Upo the return of the steamer, it was found that Major COLE had anticipated the orders of Col. SPRAGUE, commanding the Department of Florida, and a guard from the revenue steamer in port was on the wharf. The steamer made her usual business stay, and proceeded thence to this city without further trouble. The colored element have become very

annoying. Hon. Yule's house was brickbatted,

and the general tone of the colored element is-

for fight.

REGISTRATION .- We have only a report from one precinct of yesterday's registration in the city: First Precinct-Wards Nos. 1 and 2. White, 12;

JOHN FERGUSON, has just arrived from Wright's Bluff, on the Santee River, touching at the intermediate points, going and returning in the excellent time of four days THE CATERPILLAR IN THE UP-COUNTRY. -- One of our most prominent citizens now farming near Pendleton, S. C., has written to a large firm here within a few days, in which he states that "the

Tal-MAGE & Co., a package of new crop South Carolina paddy. It was grown near the Cooper River, and is a sample of some 30,000 bushels now ready to be forwarded to market. The quality is excellent,

and the amount of 'volunteer grain' small. THE MAILS, we regret to say, are still very irregular. There is not a week in which, from some cause or other, the Northern mail does not fail once or twice. On Wednesday we had no mail north of Richmond; yesterday we had nothing from beyond Wilmington by the Northeastern train, but received the previous day's Northern mail by the South Carolina Railroad; so that we are still one day behind. We devoutly hope that reconstruction may come ere long, and with it the essation of these inconveniences. We often wonder whether in Kansas, too, where they have female suffrage, they tolerate such mail irregulari- and stamped envelope addressed to yourself, you will re-

THE FIRE YESTERDAY .- About half-past twelve o'clock yesterday the engines were brought out by the alarm bell giving notice that there was a fire in the Eighth Ward. It was at the northwest corner of Cannon and President streets, in the house occupied by Mr. Morris Lidrich, and owned by Mr. J. LUDEN. The fire broke out upstairs, where the family occupants reside. The roof was damaged perhaps to the amount of about \$75, and the furniture slightly injured. There is \$1000 insurance on the house in the Carolina Mu-

tual Insurance Company of this city. While the Marion Steam Fire Company was engaged in putting the above fire out, the sparks from her chimney set fire to the roof of the house near where she was stationed. Fortunately it was liscovered, and put out with little trouble or loss.

CHARLESTONIANS IN THE WEST .- A friend handed us the "Aunzeiger des Sudeus," a German paper published in Memphis, in which we find a paragraph we believe of sufficient interest to our readers to induce us to translate it into English.

"Yellow Fever on the Levee .- On Sunday morning, the 8th inst., the Mohawk, from New Orleans, came to the Levee (at Memphis) with seven yellow fever patients. One of the passengers died of this disease while the vessel lay at anchor. Nearly all the sailors (or hands) were sick. As soon as the Mayor heard of it, he went down to the boat and told the captain that he could not be permitted to land. Dr. LEBBY, of Charleston, who has had much experience in the treatment of yellow fever patients, offered to accompany the boat on its way to St. Louis, and after he had secured the neces sary medicines, he went up the river in the boat. At Columbus, Ky., the doctor left the boat, and arrived here day before yesterday. He says that on the voyage up the river only one more passenger died, and four took the fever."

We take sincere pleasure in recording an act of State. Messrs. Sparnick & Co. are the agents, and heroism like the above. Dr. LEBBY, above mentioned, was well known to us during the war nost of the time being stationed in Virginia, where at different times he held positions of honor and \$60,000 in Prizes to be responsibility. He is a son of our esteemed fellow citizen, Dr. R. LEBBY.

ALLENDALE, BARNWELL DISTRICT, S. C., 1 March 1, 1867. ALLENDALE, BARNWELL DISTRICT, S. C., Messer, Little & Marshall:

GENTLEMEN: I used, during the past season, one of 'Ingersoll's Portable Cotton Presses," purchased of you last September. I have always been prejudiced in favor of the "Screw Press," and nothing but dire necessity induced me to try any other. I take pleasure, however, in adding my testimony in favor of its entire adaptation to the wants of a cotton plantation. It has surpassed my most sanguine expectations. I have packed with but two hands, yet I prefer four—two at each lever. My bales all weighted over 500 lbs. The first lot I sent to market averaged 562 lbs. My impression is that 500 lbs tabout the capacity of the Press, and a greater number of pounds subject the follow-block to too much risk, unless the sades of the cotton box was increased. If would add greatly to the value of the Press if the cotton box was sen inches longer. In haste, I am, very respectfully. Your obedient servant, &c., B. W. LAWTON.

P. S. I took my Press down and carried it some four a "Screw" built; he was so much pleased that he has determined to abandon the "Screw" and purchase "in gersoll's Press."

OFFICE OF KING'S MOUNTAIN RAILROAD COMPANY, } OFFICE OF KING'S MOUNTAIN RATEROAD COMPANY, 1
YORKYILLE, S. C., April 15. 1867. 1
GENTLEMEN: I have just received your letter of February 14th—upon my return to this place, after an absence of two months—and this reply may be too late for your "Descriptive Circular of Ingersoll's Cotton Press."
The Press I used in packing my cotton last year worked admirably, packing, with case from 500 to 625 lbs. With good active hands to work u, I am satisfied that from eighteen to twenty bates might readily be packed in a day.

that from eighteen to twenty bases ingut readly be packed in a day.

This Press combines the advantages of lightness, and consequent portability and simplicity (being easily managed by any one of ordinary intelligence). Great compressing torce, with little motive power, and "last, but not least," it is worked entirely by hand, thus saving for the farm horses the hard labor imposed upon them by the use of the ordinary "Screw."

Respectfully, &c., yours, E. M. LAW.

MANY WHOSE DECLINING HEALTH, WHICH do now with grateful emanations to the All-Wise Disposer, offer heartielt thanks for this timely remedy. During the short time since its public introduction into use, the Originator has most happily realized her most sanguing expectations in manifestations issuing from all quarters of its unparalelled curative properties, for in no case where it has been administered with regard to directions, and persevered in, has it failed in its beneficial results.

The appetite, which improves under its administration, is at liberty to indulge prudently in whatever nutriment is palatable, digestive and wholesome, and while it is no more than proper to avoid exposure to fresh cold, no fear need be entertained of any liability under this course of treatment to induce it. It is a pleasant AROMATIC CORDIAL, quite agreeable to the faste, and as a lump revivityer and balsam of health, it is distinguishing itself as without precedent, and we trust will, ere long, claim for itself general acchamation for its unrivalled efficacy. For sale by the Proprietress, Mrs. CECILIA RODRIGUE'S, northwest corner of MFETING AND SOCIETY STREETS, and principal Druggists.
